

## GoMeter<sup>®</sup>

Enhance your water usage with this ultimate real-time water monitoring solution

Take control of your water usage with GoMeter, our state-of-the-art solution designed to accurately and reliably monitor your water meter in real-time. Our device goes beyond simply measuring flow rate and total flow, it provides you with valuable insights into flow rate efficiency by measuring flow rate over a 24-hour period.

This invaluable data enables you to document and understand all current water movements on your farm, empowering you to make informed decisions and improve your water usage. And with our easy-to-use app, all of this information is right at your fingertips, giving you access to both current and historical data that makes it easy to monitor and report changes over time.

## Key benefits

### Accurate measurement

You will know exactly how much water has flowed onto your farm.

### Data dashboard

All your data is quickly accessible and securely stored in our easy-to-use app.

### Reduce labour

Eliminate the need to manually check your meter, and always have a record in hand of your flow rate and total flow.

### Improved tracking

You can access current and historic data to measure, document, and hold yourself accountable for water flow.

### Easy install and maintenance

This device is simple to install and even easier to maintain.

### Efficient investment

The time saving benefits of this device outweigh the minimal investment.

## Specifications

### Operating temperature range

-20 to +60 degrees

### IP rating

IP66

### Update frequency

In app every 15 minutes

### Battery life

3 years

### GPS

Yes

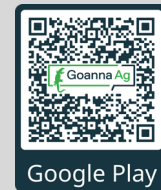

### Communication

CAT-M1 Cellular

## Download our GoApp
